May 18, 2023 | Project Update No. 3

This letter is being sent to inform you of construction activity on the above-referenced project.

IF YOU ARE A LANDLORD, PLEASE SHARE THIS NEWSLETTER WITH YOUR RENTERS/TENANTS.

Due to the large amounts of rain received the contractor was not able to resume operations until this Wednesday. They have installed additional storm structures on Maple Avenue and plan for a water main shutdown either this Friday or early next week. The plan is to begin installing water main along G Avenue and Jason Drive through next week before resuming with the installation of storm sewer on 1st Street.

Although attempts have been made to maintain some access to areas under construction, the narrow confines of the existing road combined with the crews and equipment are creating conditions that are no longer safe to allow access during the day. These conditions will only get worse as progress continues to be made. **Therefore, we ask residents in the construction area not to expect driveway access during the day.** For the next few weeks, the contractor will try to ensure access by the end of the day.

Remember, anything within the public right-of-way could be in jeopardy of being damaged and/or removed. This includes landscaping, irrigation or pet containment systems, etc. Those systems are considered "private" facilities. Locating them and marking them in and near the right-of-way is the property owner's responsibility. It would be helpful for those of you who have irrigation or pet containment systems to contact me so that we are made aware of them. **Any damage to those systems because of failure to locate and mark them will be the property owner's responsibility.**

Note: Future project updates may be mailed or a digital copy sent if you opt in. To receive e-mailed project updates, please email your name, property address, and email address to Julie Brinkman at jbrinkman@sehinc.com.

If you have any questions or concerns, feel free to contact me or City Engineer/Project Manager Brent Kavitz.
